Sai Harini Devarakonda

Project Coordinator | Junior Project Manager | CAPM Certified

Email: saiharini.d@gmail.com
LinkedIn: linkedin.com/in/harinidevarakonda
Portfolio: sai-devarakonda.github.io/myportfolio
Location: London, United Kingdom

PROFESSIONAL SUMMARY

Project coordinator with a background spanning software delivery, data and workforce operations. Coordinated concurrent workforce projects across NHS Trusts at NHS Professionals, cutting hiring-process discrepancies to zero and halving candidate turnaround time, and now run sprints, testing and releases as a voluntary Junior Project Manager at an AI start-up. Started as a full-stack developer, so I work comfortably with technical teams. CAPM certified, PRINCE2 Practitioner in progress, with a Master's in Business Management. Seeking project coordinator and junior project manager roles.

KEY SKILLS

Planning and Delivery

- Project planning, scheduling and milestone tracking
- Dependency, resource and budget tracking
- Agile and Scrum: sprint planning, stand-ups, backlog refinement
- Waterfall and hybrid delivery
- UAT coordination and release management

Governance and Stakeholders

- RAID log and risk and issue management
- Stakeholder management and workshop facilitation
- Status, KPI and steering reporting
- Change control and process improvement
- Compliance and audit-ready documentation

Tools

- Jira, Confluence, Azure DevOps, Microsoft Project, Trello, Asana, Monday.com
- Power BI, Tableau, SQL, Advanced Excel, SAP
- SharePoint, Miro, Microsoft Teams, Microsoft Copilot

PROFESSIONAL EXPERIENCE

Junior Project Manager (Voluntary)

Reco Genie | United Kingdom | Apr 2026 – Present

AI platform that helps local restaurants and small businesses automate daily tasks and forecast customer demand.

- **Sprint Coordination:** Maintain the Jira board and run daily stand-ups and sprint planning, catching blockers early, such as a lagging forecasting algorithm or a broken restaurant onboarding workflow.
- **Testing and Release:** With no dedicated QA team, test new web workflows and dashboards on desktop and mobile before release, and write release notes for new automation features.
- **Requirements and Prioritisation:** Onboard early-adopter restaurants and turn their feedback into prioritised product requirements and backlog items.
- **Data Readiness:** Clean and upload menu, calendar and historical sales data used to train the forecasting model, and check AI outputs before they run autonomously.

Trust Recruitment Coordinator (Workforce Project Coordination)

NHS Professionals | United Kingdom | May 2025 – May 2026

Role scope expanded following organisational restructure to include end-to-end workforce project coordination, planning, stakeholder governance and cross-Trust operational change.

- **Workstream Coordination:** Coordinated concurrent onboarding and deployment workstreams across 2 to 3 NHS Trusts and around 50 agencies, handling 200 to 300 candidates a week against agreed timelines.
- **Process Improvement:** Streamlined the hiring process, cutting discrepancies from 2 to 3% to zero and turnaround from 3 weeks to 1.5 weeks.
- **Compliance:** Streamlined and automated weekly Trust compliance assessments, reducing errors from 5% to zero.
- **Budget and Resources:** Tracked monthly budgets for 30+ departments in SAP, supporting the Trusts' goal of reducing agency spend.

- **Reporting:** Built Power BI dashboards and reported onboarding and performance KPIs to Trust leaders and senior stakeholders.
- **Risk and Issues:** Tracked actions, risks and onboarding blockers, escalating where needed to protect deployment timelines.

Store Manager / Customer Service Executive (Part-Time)
William Hill (888) | *United Kingdom* | *Sep 2024 – Jan 2025*

- Ran daily store operations and end-of-shift financial reporting with zero discrepancies, and ensured compliance with age verification, responsible gambling and anti-money laundering rules.

Digital Marketing Intern
Won Connect | *United Kingdom* | *May 2024 – Jan 2025*

- Coordinated multi-channel campaign schedules and deliverables, and reported performance from Google Analytics to shape later campaigns.

Associate Consultant / Developer
Cognizant Technology Solutions | *India* | *Feb 2022 – Aug 2023*

- **Agile Delivery:** Supported sprint planning, backlog refinement and cross-team status updates with engineering, QA and product teams on Apple Maps data quality.
- **Stakeholder Reporting:** Captured business requirements in client meetings and presented KPI reports to senior management.
- **Achievement:** Promoted to a senior team within three months; mentored junior analysts.

Content Manager
Vega Prosys | *India* | *Feb 2021 – Feb 2022*

- Led a team of intern developers, allocating tasks, estimating effort and tracking deliverables on full-stack web projects.
- **Achievement:** Delivered a six-month project in three months by reworking the workflow with Agile practices.

Full-Stack Developer
IT Aspects | *India* | *Feb 2020 – Feb 2021*

- Built client web applications in PHP and React.js, and resolved a critical payment gateway failure on a live charity website.

EDUCATION

Master's in Business Management (MBM), University of Strathclyde, United Kingdom

- Modules included Project Management and Service Operations Management; thesis on risk management strategies in IT service projects.

Bachelor of Technology (Electronics and Communication Engineering), JNTUK University, India

CERTIFICATIONS

- Certified Associate in Project Management (CAPM), Project Management Institute
- PRINCE2 Practitioner (in progress)
- Project Management Foundations, Project Management Institute
- Lean Six Sigma Foundations
- Web Development, Tech Mahindra

PROJECTS

- **Agile Sprint Tracker:** Interactive sprint dashboard with burndown chart, backlog and RAID log (live on my portfolio).
- **IT Risk Management Framework:** Risk classification, scoring and governance reporting framework built from my Master's thesis.

VOLUNTEERING

- Hear to Listen wellbeing support programme, University of Strathclyde
- Rotary Club India: organised events and workshops for engineering students
- Local fundraising events supporting poverty eradication initiatives
